UTAH WILL HAVE WEEK AT PORTLAND

une Day to be Devoted to Each Of State's Leading Cities.

SALT LAKE CETS AUGUST 26.

Fair Commission Plans for Free Distribution of Grand County Fruit.

Gov. Cutler has received an invitation from the management of the Lewis and Clark exposition to accept the week beginning Aug. 21 at Utah week, and make each of its days a special event for some one of Utah's cities. At a meeting of the fair commission yesterday afternoon in the office of Gov. Cutler the invitation was accepted, and a wire to that effect sent to President Goode.

In Utah week the Irrigation Congress will meet, the Ogden Tabernacle choir will probably be in attendance, and a car load of fruit will be on hand for free distribution—the product of Grand county orchards. The plans as forecasted now indicate a signally successful Utah week at Portland.

The ceremonies on the days set apart for each city will not be elaborate. Shortly before noon the mayor of the Shortly before noon the mayor of the city whose day it is, will assemble with other representatives of his city in front of the Utah building. The administration band will be in attendance on behalf of the fair management. President Goode will make a brief address of welcome and the mayor will reply. The remaining features of the day will

be informal.

Utah week at the fair precedes Arlzona week, and follows Nevada week. DATES FOR OTHER STATES.

The dates for other states are: Idaho, week commencing July 3; Montana, week commencing July 10; Wyoming, week commencing July 17. As all of these states have not erected buildings or planned for them, Utah has been re-quested in common with at

or planned for them, Utah has been requested in common with other states to throw open her building for use by neighboring states on their particular days, and this the commission has expressed its willingness to do.

The commission meeting yesterday attennoon was a busy one. All members were present, and the session was very lengthy. The main feature was the handling of the Utah week invitation, and the fixing of a schedule for the Utah cities during the week.

DAYS FOR UTAH CITIES.

The days were set apart as follows Monday, Aug. 21. Ogden; Tuesday, Aug. 22. Logan; Wednesday, Aug. 23. Eureka and Brigham City; Thursday, Aug. 24. Provo; Friday, Aug. 25. Spring-ville and Park City, and Saturday, Aug. 26, Salt Lake City.

A-number of people interested in dif-

ferent features of the Utah exhibit called during the session. R. W. Sloan appeared in behalf of his publication,

The Mountain Empire, Utah. S. Lovesy urged that a honey ex-be made, Dr. R. H. Bradford spoke for a liberal mining exhibit, as-serting that it was essential to a just serting that it was essential to a just representation of Utah's resources. Mons Peterson of the State Horticultural society urged the necessity of a good fruit exhibit, and L. W. Shurtliff and Charles J. Ross of Ogden brought up the matter of sending the Ogden Tabernacle choir to Portland. Prof. L. A. Ostein, director of the educational exhibit, spoke enthusiastically of the outlook for a successful display.

TEXT OF PRESIDENT GOODE'S LETTER.

The full text of President Goode's letter inviting Utah to accept a week for her cities follows:

Portland, Or., April 15, 1905.—Hou. John C. Cutler, Governor of Utah, Salt Lake City Utah. Dear Sir—On behalf of the Lewis and Clark Centennial exposition I take pleasure in Johnson Company exposition I take pleasure in informing you that with a view of doing signal honor to the state of Utah and organizing a systematic movement by which the people of the various communities of the state can in substantial numbers arrange to visit and enjoy the manifold educational advantages and other at-tractions of the exposition the exposition management has decided apart the period commencing Monday, Aug. 21, and ending Saturday, Aug. 28, as "Utah Cities" Week." Separate days in this week will be designated for speelal celebration on the exposition grounds by the municipalities of the state. If this plan meets with your approval we would request the issuance by you of a proclamation a month in advance of this suggested period, call-ing attention of the people of Utah to these auspicious events and urging ev-ery patriotic son and daughter of the commonwealth to assemble at the expocommonwealth to assemble at the expo-sition during the period mentioned for the purpose of honoring the occasion and by their presence insure the success its importance deserves. In this con-mection permit me to add that the hearty co-operation of the state com-mission is assured and the mayor of each city will be invited direct by the exposition management to make an exposition management to make ap-propriate arrangements for the visit of his city's delegation to the Lewis and Clark Centennial exposition on the spe-cial date aliotted. Awaiting your reply 1 am very respectfully yours. H. W. GOODE, President.

John W. Glenister, of Providence, R. I., champion long distance swimmer of America, has performed notable feats in this country and England. He has used Peruna as a tonic and gives his opinion of it in the following letter:

In order to do this he must avail himself of a spring tonic upon which he can rely.

Therefore athletes are especially friendly toward Peruna. Peruna never fails them.

FALSEHOODS REFUTED.

Correspondent Takes Tribune to Task For Malicious Misstatements.

Ogden, Utah, April 26, 1905,-Editor Deseret News .- Dear Sir: Yesterday (Tuesday) a copy of the Salt Lake Tribune was picked up in our front yard. On looking over its contents, I saw what purported to be a report of the Weber stake conference, held in the Ogden tabernacle, on Sunday, the 23rd inst. The report contained such bold falsehoods that would make a bald eagle scream with disgust. Evidently that reporter was not in the building. and did not see or hear the conference proceedings, or else he wilfully and deliberately perpetrated the malicious

untruths contained in his article. Among other things he said: "On the same block as the tabernacie, the whole block being owned by the church, is situated two meetinghouses and the home of the Female Relief so-clety. The immense crowds in attend-ance at the conference and the hun-dreds who could not gain admission to the tabernacle, suggested the thought that overflow meetings might be held in one or all three of the additional structures. But no such thought entered the minds of the stake presidency. They seemed as void of initiative as babies, and hundreds of Mormons who have paid tithing for years were de-prived of the privilege of listening to an expounding of the doctrines."

Now, sir, I was present at the con-ference of the Lesser Priesthood, which

" My little daughter was a mass of sores all over her body. Her face was eaten away, and her ears looked as if they would drop off. I called in three doctors, but she grew worse. Neighbors advised Cuticura, and before I had used half of the cake of soap, and box of ointment, the sores had all healed, and my little one's skin was as clear as a new-born babe's. I would not be without Cuticura again if it cost five dollars, instead of seventyfive cents, which is all it cost us to cure our baby. Mrs. G. J. Steese, 701 Coburn St., Akron, Ohio."

was held in the Ogden tabernacle on Saturday, April 22, at which nearly 600 members of the Priesthood were pres-ent. During the session President Lewis W. Shurtliff spoke of the Weber Lewis W. Shurtliff spoke of the Weber stake conference, which would be held on the morrow. He said he did not expect the tabernacle would hold all who desired to be present, but, he said, overflow meetings would be held in the Third ward meetinghouse, so those who could not gain admission to the tabernacle would be accommodated. The whole congregation heard this. The Bishop of that ward was present and was instructed in relation to the matter.

ter.

Again, I was present at the stake conference held on the following day in the tabernacle, which was filled to its utmost capacity.

President Shurtliff again announced that an overflow meeting would be held in the afternoon in the Third ward meetinghouse, and that speakers would be appointed to address the assembly. So that base untruth is refuted!

Again that hired scripsit stated that "Judge H. H. Rolapp was the principal speaker in the afternoon."

"Judge H. H. Rolapp was the principal speaker in the afternoon."

Now, Judge Rolapp responded to a request to report the condition and progress of the parent's department in connection with the Sunday school, which he did in a brief, but graphic manner. The reporter omitted to say one word of the highly interesting addresses of Elder B. F. Grant and Apostle John Henry Smith. But his report was for exportation and not for report was for exportation and not for home consumption. Nevertheless "Truth is mighty and will prevail" over the billows of falsehoods and their perpe-

trators.

With a desire to live and see the kingdom of God triumph over the world, the flesh and the devil, I am yours respectfully, H. J. I.

"I consider the rates named in the present ordinance reasonably low, in fact, too low for some of the larger shows exhibiting in this city. It is not my purpose to dilate upon the vast amount of money every large circus and menagerie combined that shows here takes away from this city. Suffice it to say that such a sum is sufficiently enormous to be not affected in the least by leaving \$400 of it to this municipality. And further, I would respectfully recommend that whatever sum the ordinance in the future exacts as a license for these large shows the amount is collected, and not reduced a contributions.

Rev. P. A. Simpkin preached last light, in the First Methodist church before a large congregation in attendance on the revival meetings, from the text, "The Son of Man Came to Seek and to Save that which was Lost." The speaker said in part:
"Every person that is not in a right,

normal relationship with God is lost. In your sin you cannot be in communion with the Holy One and consequently a change in life's course is

needed unless the end thereof shall be death. But we are not going to find lifa everlasting as a result of science or philosophy, but by that power and love which will enable us to break from sin and follow Jesus.

sin and follow Jesus.

"There is nothing more cowardly in man than the tendency to excuse and minimize sin. Some lay it to heredity, others to environment, and still others to something else. When you hear such talk take it for granted that the sinner is either a coward or an irresponsible. Sin means two things—it means one thing to God and another to your souls. Sin means two things—it means on thing to God and another to your souls. To find out what God thinks of it you have only to ask yourself why He sen. VALUE OF THE LAKE.

Contains Enough Salt and Soda to Buy the United States.

A writer in Wayside Tales, a bristling Chicago magazine, gives out figures on the relative importance of the Great Salt lake that astonish even a native son. Among other things the writer says that the Atlantic ocean holds 5.5 per cent of solids, while the water of Great Salt lake, America's Great Dead Sea, contains 18 per cent; and there are contained in its body, which stretches 100 miles in length and 30 niles in width, with an average depth f 30 feet, 250,905.600 cubic feet of salt,

sulphur, sulphate of soda, magnesia and boracle acid. Rather a staggering amount is it not? Each year thousands of tons of salt are piled up on the shores by winds and

are piled up on the shores by winds and natural evaporation.

If one be in the mood to do a bit of figuring, it is not very hard to find that allowing 65 pounds to the cubic foot of solids—which is practically its correct weight, and allowing 10 tons to the car, there are 956,424,960 carloads of solid metals in Salt Lake's waters! Allow 30 feet for each car's length, and it will be found that it would require a train 5,434,230 miles long to transport this salt and soda—a train long enough to reach from the moon to the earth, encircle the earth 196 times and leave a string of cars nearly 10,000 miles long a string of cars nearly 10,000 miles long hanging over.

Put such a train in motion, at a speed of 20 miles an hour, and it would

take 28 years, five months and 24 days to pass a station.

And listen—if all this salt and soda were put on the market and sold at one cent per pound, the revenue derived from the sale would almost reach the enormous sum of \$104,000,000,000— money enough to buy the whole United
